OUR TEST GARDENS ON THE EASTERN SHORE

Few nurserymen realize how much money they lose by neglecting new plants. Valuable opportunities are often passed by because of a tendency to offer only things which long experience has proven easy to sell.

In time, that tendency leads to over-production and ruinous prices. Customers become surfeited and refuse to buy because of the sameness of the offerings.

Good economics demand that you never sell in a jaded market. You should always be offering something new to retain the interest of old customers and to attract new buyers.

We know you are busy with growing problems, sales effort, and such matters, and it is unreasonable to expect you to ferret out rare plants and test them. That is where we come in. We have close relations with the hybridizers and discoverers of new plants, both abroad and in America. We make it our business to obtain and multiply the good things.

However, it is you nurserymen who will profit most by making these discoveries known to the world. We invite you to study this folder and help us distribute these unusual plants to our mutual benefit and the glory of gardening.

Beautiful BLUE BIRD

Gardeners welcome this glorious newcomer to the small and choice list of colorful, all-summer flowering shrubs. Its large, 5-in. flowers stand out like pert saucers. Stunning in shrub plantings or as a specimen. **Blue Bird** is vigorous in growth, upright in habit and blooms prolifically from early summer until frost.

Pat. 1739

Place "Crimson King" orders with the Patent Owners, **GULF STREAM PRODUCTS, INC.**, Wachapreague, Va., or with the Licensees listed below.

MAPLE, Crimson King

Acer platanoides schwedleri nigra (Patent No. 735)

... here are just a few
OF THE *Better Kinds*
from **GULF STREAM**

PHILADELPHUS, Silver Showers

SALIX REPENS, Golden Dwarf

"CRIMSON KING"

Most Beautiful of All Shade Trees

Include patented Crimson King Maple on your list in 1960. It's the only maple which retains its dark crimson color throughout the spring, summer and fall, creating an exciting and continuous color contrast to lawns and shrubs. Be sure you get the original

Crimson King. It is easily recognized by the dark, glistening, satiny sheen of its colorful foliage.

NOT GENUINE WITHOUT THIS TAG

VIBURNUM, Opulus Compactum

PHILADELPHUS, Silver Showers

Here is an exceptionally fragrant, unusually heavy blooming Mock-orange. It is perfect for small gardens since it grows no higher than 3 feet tall. Exquisite alabaster-white blossoms literally cover this handsome, completely hardy shrub.

SALIX REPENS, Golden Dwarf

Dainty yellow catkins develop on this superb small shrub in March and April. The foliage that follows is brilliant silver-grey appearing on slender, arching branches. Foliage is conspicuous and of high decorative value. Ultimate height 3 to 4 ft.

Colorful Berried Shrubs

VIBURNUM, Betulifolium

Another fine Chinese Viburnum with large clusters of bright red berries which are produced in great numbers early in the fall. A real addition to the red berried shrubs. Flowers are white. Mature plants reach 8 to 10 feet in height.

VIBURNUM, Opulus Compactum

All the objections of the common VIBURNUM, **Opulus** are missing in this superb dwarf form. **Opulus Compactum** is a rare, free-fruited dwarf which grows to about 4 to 5 feet high. Compact in habit and free-fruited with umbels of brilliant red berries covering the plant in early autumn.

VIBURNUM, Wrightii

A handsome shrub from Japan that develops into a hardy, spreading bush 4 to 6 ft. high. From August until October, large cymes of glistening red fruits produce a brilliant display against the metallic green color of the lovely oval leaves. In late fall when the foliage turns a rich crimson this worth-while shrub is truly dazzling.

VIBURNUM, Setigerum

One of the best all-season shrubs. Beautiful, clean, deep green foliage appears in early spring followed by lovely white flowers that add to its charm. Setigerum is a colorful sight in late summer and autumn when clusters of brilliant red berries literally cover the entire plant. Rare and choice. Grows to 10 feet when mature.
